### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The claimed subject matter in claims 3-5 and 8-13 is allowable because the arts of record fail to teach or fairly suggest the claimed "A mobile communication system comprising a plurality of mobile stations and a base station, said base station comprising a plurality of antennas, a frequency shift portion, a combining portion, a receiving portion and a signal processing portion, wherein:

the frequency shift portion shifts the received signals with a frequency corresponding to each of the antennas (see frequency shifters 111 having a plurality of frequency shifters corresponding to each of the antennas 109-1-109-n in fig 2); and in combination with the claimed combining portion combines the signal, which is shifted in frequency, receiver that converts the combined signal into intermediate frequency signal as in claims 3-5 and 8-13, and the signal processing section as in claims 3,-5,8-10 and 12.

### ***Conclusion***

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US patent number 5,742,583 issued to Scoot disclose antenna diversity receiver having means for frequency shifting only one antenna.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
